Fly fishing requires being fully present. It gives you the opportunity to set out on an amazing adventure that takes you from the hustle and bustle of life and provides an avenue for solitude, exploration, reflection, and transformation.

When fishing, you stand face to face with nature and are challenged to look inward—

It is you and the river.

It is you and the fish.

As you look into the river, you will also look more deeply at *who you are and who you want to become.*

Fly fishing can give you the time and space *to just be.*

Whether it is a local pond or deep in the backcountry, fishing will push you to explore the adventure of life.

WHAT YOU CAN EXPECT FROM THIS GROUP EXPERIENCE:

Each week we will explore an area of fly fishing and see how it helps shape our lives and speak into our hearts. We will explore life lessons through both the good and bad that happen on the river.
